120K

users reached in 4 months after launch

New unified ad creation in Yandex Business

Redesigned the campaign creation flow to unify different ad types, simplify navigation, and make setup faster and clearer.

3x

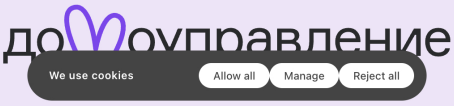

faster ad creation with unified flow and autofilling

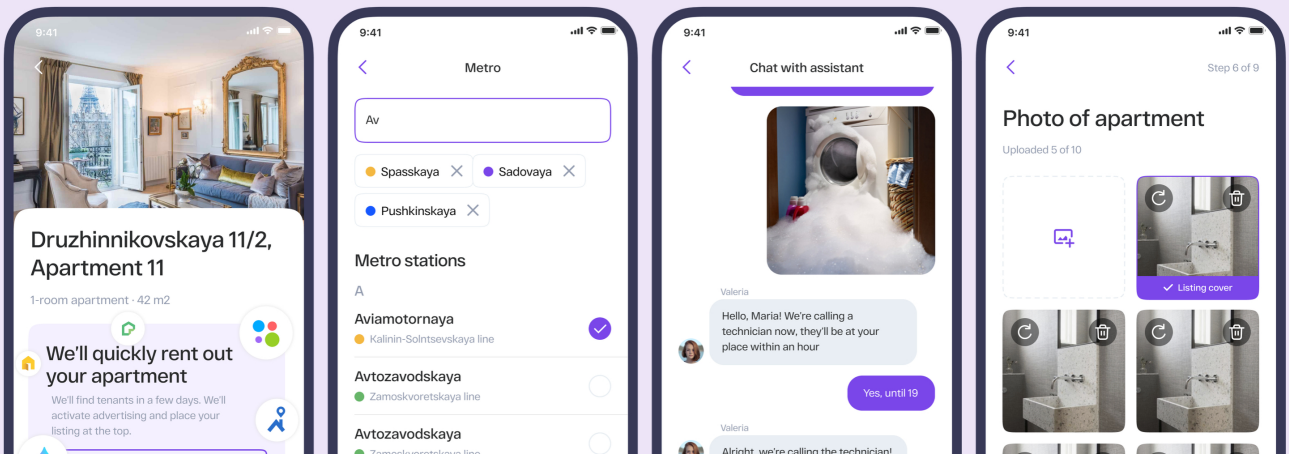

Explore the case →

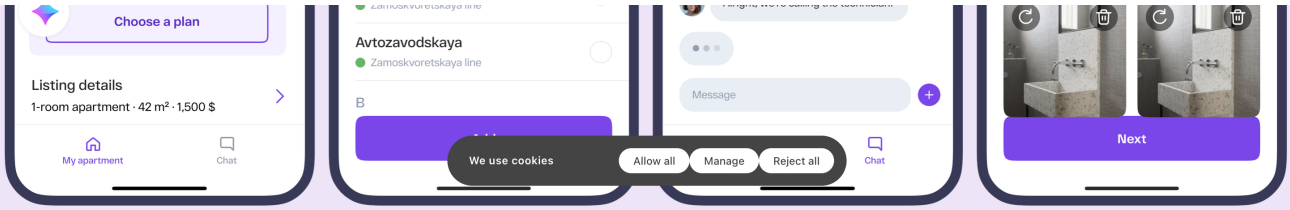

Before Yandex

Designed at a top-10 Russian design studio, working across e-commerce, fintech, real estate, media, and SaaS products. Contributed to UX research, created web and mobile interfaces, and shaped product strategy.

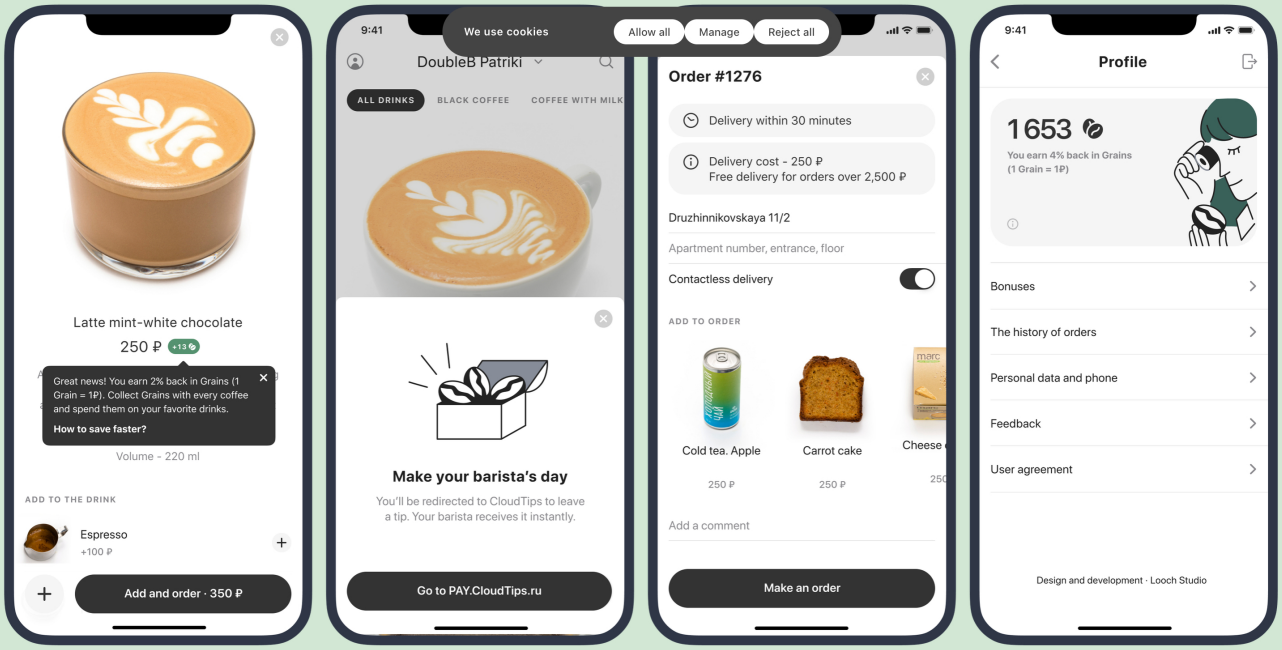

In 2020, I designed concierge-style rental app for landlords and tenants

Designed the full experience from research to launch — simplifying listing and rental management for landlords and tenants.

ДАБЛБИ

Mobile loyalty and ordering app for the coffee brand DoubleB

Designed during the COVID era — created a loyalty and payment system that helped DoubleB keep coffee orders fast, contactless, and personal.
